HINTS OF BOODLE.

Brooklyn Taxpayers Indignant Over the Franchise Gifts.

Mayor Boddy Intimates that He Will Veto Them.

The Action of the Aldermen Declared to Be Outrageous.

The taxpayers of Brooklyn were indignant this morning over the action of the Board of Aldermen yesterday, when they gave the Nassau and Kings County Electric Railroad Companies valuable franchises free regardless of the offer of \$25,000 made by the Brooklyn City Railroad for the same privileges.

This morning, as well as at the meeting yesterday, there were whispers of boodle. The action of the Aldermen was compared with that of the Jake Sharp "boodlers" of this city.

There were the same snap-shot meetings of the Railroad Committee and the rushing through of the measures signed by only three of the Committee and opposed by a few members of the Board who were open in their intimations of "boodle."

The Railroad Committee was composed of Aldermen McGrath, Thomas, Wafer, McGarry and McKee.

Aldermen McGrath, McKee and McGarry held a meeting in the City Clerk's office a few minutes before the Board met and signed the resolution granting the franchises to the railroad companies.

There were mysterious conferences at the locked-out printers' headquarters, 103 Broadway and Beekman Hall, 216 Fifth street.

Lee Kaufman, the manufacturer who was said to have signed his intention of withdrawing from the Manufacturers' Association this morning, but, however, refused to say anything.

Kaufman later was served late this forenoon with papers in a civil action for \$25,000.

NO PROSPECT OF A STRIKE.

Cutters and Tailors Said to Know a Trick Worth Two of That.

A New Scheme to Out Hornthal is on the Tapas.

The locked-out garment-cutters' battle will be clinched Saturday afternoon. There is no sign yet that either side yields.

"Instead of ordering a general strike of tailors, as was originally contemplated," said Secretary Harry White, of the Locked-out Cutters, this morning, "the contractors and tailors will devise some more pacific means of assisting us and at the same time advance their own interests. They will present all arms with a schedule of uniform hours, wages and better conditions generally. There is no doubt that when the bargain is matured it will bring about results even more favorable than could be obtained by a strike which would cripple the whole trade."

"As for suing Vice-President Mendelson, of the Manufacturers' Association," continued White, "we don't exactly know to go about it. The others who have been sued for \$75,000 damages have been paid their cutters, were all indubitable members of their respective firms. Mr. Mendelson, however, is a seemingly undivided entity. He is so far as we can ascertain, a partner in any of the association firms and gets his Vice-Presidential salary."

THE WORLD'S FAIR STRIKE.

Walking Delegates Appear to Have Been the Only Gainers by It.

CHICAGO, April 11.—The net result of the World's Fair strike, which came to a quick end last night, was the loss of one day's work to the men, the securing of free tickets for Walking's gates and twenty-four hours less of time in completing the Fair at a time when every minute is precious.

It is virtually a tie-down on the part of the late leaders, who were compelled to admit that the question of employing non-union men has been largely settled.

Four thousand two hundred workers obeyed the orders of the printing trades council to strike and about 1,000 ignored the orders.

There was no violence offered the men who refused to leave their posts, but the strike was continued by those who did not return to their work, and in one instance, when the refusal of non-union men to yield to the demands of the delegates to quit work and to return to their posts, a strike was declared.

Mayor Boddy arrived at the City Hall at 10 o'clock, and was closeted for a half hour with Corporation-Counsel Justice.

When Mayor Boddy said:

"I have nothing whatever to say about the proceedings of the Board of Aldermen yesterday. All other matters, except the granting of franchises, etc., to railroad companies must come before me in final action. What that action will be, hardly think, propels me to say now. But, however, my official action in this matter will speak for itself."

It is generally understood that the Aldermen will veto the resolutions when they come before him, and the companies to pay handsomely for the grants.

DE VERAGUA TO BE HONORED.

To Be Presented with the Freedom of the City Upon His Arrival.

A resolution offered by President McClellan was adopted by the Board of Aldermen this morning conferring the freedom of the city on the Duke de Veragua, the legal descendant of Christopher Columbus.

The Duke is now on his way from South America to the steamer New York.

He will be welcomed by the Mayor and President McClellan and presented with the freedom of the city.

Since colonial times this extraordinary prince has seldom been honored in this Republic.

An exception is made in the case of the Duke de Veragua, because the blood of the discoverer of America flows in his veins.

BIG 4'S \$50,000,000 OF BONDS.

The Money to Be Used in Additions and Betterments to the Road.

INDIANAPOLIS, April 11.—An attempt to place a \$50,000,000 mortgage on the Big Four Railroad to secure that amount of bond, will be made at the meeting of the Board of Directors in Cincinnati, May 10.

President Ingalls, who has been agitating the project, is reported to have the consent of a majority of the directors. The bonds to run 100 years and draw 4 per cent.

Of the new bonds \$50,000,000 will be sold and the money used for construction and additions. The remaining bonds to be used for the purpose, will be issued in an aggregate amount of \$10,000,000.

One plan is to make the Central division a double track line from Indianapolis to the Ohio River at Cincinnati. It is also suspected that the Big Four is about to buy the Ohio Southern, which connects with the Atlantic.

Wrecked by a Blast.

It is the safe and insurance office of Shaw & Co., on Ninety-sixth street, in ruins, as a result of a blast that was fired by Tully & Company, the contractors in an adjacent excavation. Several valuable oil paintings were destroyed.

\$2B for an Injured Back.

BUCHANAN'S PERIL.

The Case of the People Now Almost Completed.

A Review of the Evidence Which Has Been Presented.

The Counter Claims of the Prosecution and the Defense.

The case against Dr. Robert W. Buchanan, charged with poisoning his wife, Anna B. Buchanan, to death, is nearly completed, so nearly that the testimony may be reviewed.

The direct examination of Prof. Withaus was completed yesterday. The cross-examination was the first business of today.

The facts furnished by Prof. Rudolph A. Wittmuss, the distinguished master of chemistry, are the culmination of the most laborious case ever prepared in the District Attorney's office.

The crucibles of the laboratory have determined beyond question, if the accuracy of the long-established tests of the chemists' science are to be accepted, that when the woman died she was saturated with morphine.

These tests have shown, also, that she had taken belladonna, or at least some drug in which atropine, the active principle of belladonna, formed a part.

The flies in Buchanan engaged in the timber-carrying trade who, since the beginning of the strike, have been idle, have been examined by the police and found to be in a healthy condition.

This morning, as a train conveying a number of the strike-breakers, as the strikers term them, was entering the town, it was stopped by a number of men who had encircled themselves along the railway embankment.

Men were shouting and firing rifles around the edge of the embankment.

The car had descended to the base of the embankment a few feet away from the station platform, when a gun shot rang out, and the car stopped to allow the man to get out of the way.

The man stood waving on the edge of the platform for a few seconds, and then fell into the river.

The body struck the side descending car and the second and third cars, and the man was thrown into the water.

In case of policemen who have been declared permanently disabled it has heretofore required a unanimous vote to retire. Commissioner MacLean has persistently refused to vote for the retirement of members of the force who had been disabled by the Board of Surgeons.

John Slaters, of his Republican organization, is president of the New York City Board of Education.

Mr. Howe argued that the testimony of Mrs. Howe was unreliable, and that sufficient evidence had been produced to show that Mrs. Carlyle Harris was an accomplice.

At this conclusion, Mr. Howe said the Governor listened intently while he gave a brief review of the case and the points on which he thought clemency should be granted.

Harris argued that the testimony of Mrs. Howe was reliable, and that sufficient evidence had been produced to show that Mrs. Carlyle Harris was an accomplice.
